FIREWORKS SAFETY

Have someone in charge with assistants who know how to follow instructions and who have read and understand these instructions.

1. **NEVER** try to light a firework or hold a lit firework in your hand.

2. **DO NOT** let any children under 18 set off any firework item.

3. Do not leave fireworks unattended or close to lighting area.

4. **NEVER** try to relight a firework that did not go off. **WAIT** for 30 minutes before approaching the dud firework.

5. **NEVER** take fireworks apart or modify them in any way. **NEVER** try to fix a firework that appears defective.

6. Keep fireworks in a **CLOSED BOX**. Store in cool dry secure place. Remove one at a time and close the lid at once.

7. Be familiar with your fireworks before starting the display. Pay particular attention to the location of the wick and proper direction.

8. Keep everyone back at least 20m for smaller ground effects, 30m for aerial fireworks.

9. Most fireworks are designed to be planted at least 1/3 in a bucket of soil or sand and tilted slightly away from the audience.

10. **NEVER** lean over a firework when lighting or after an item has been lit.

← **WIND DIRECTION**

AUDIENCE →

11. **WIND** will affect the quality of your display and may create a hazard. Be sure the firing area has lots of open space.

DO NOT shoot fireworks in **HIGH WINDS**

12. People lighting the display should wear ear and eye protection. A propane torch provides a constant steady flame for lighting.

13. Using a flashlight, ignite each firework at arms length and immediately stand back.

FIREWORKS SAFETY Contd.

14. Have a large bucket of **WATER** or a water hose available. Hose down all debris after your display.

15. Please be kind, keep all **PETS SAFELY INDOORS**.

16. **DO NOT** throw fireworks. **DO NOT** point any firework item at anyone.

**HAVE FUN
& ENJOY!**

FAMILIAR FIREWORKS & WICK LOCATIONS

1. TOP WICK

Plant firework at least 2/3 in a bucket of sand or soil.

Note - Tilt 5-10 degrees away from audience.

2. SIDE WICK

Plant firework in a bucket of sand or soil up to the wick.

Note - Tilt 5-10 degrees away from audience.

3. MORTARS & MINE BURSTS

Place on flat ground or better still place on a piece of plywood and tack it down with finishing nails.

4. CAKES, CONES & FOUNTAINS

Place in flat ground or flat piece of plywood. Various cakes and fountains have to be buried 2/3 in a bucket of sand or soil.

5. WHEELS

Nail securely to sawhorse or post allowing spinning clearance.

Note - These items might start trees on fire.

6. SPARKLERS

Keep children 6 feet apart. Do not allow them to chase or wave sparklers at each other or throw them. Have kids place burnt out sparklers in a bucket of water.

Note - Be careful a child does not place sparkler in other fireworks.
